Oromia: Ethiopia: Govt Accused of Bloody Crackdown On #OromoProtests

> The Oromo people see the government's violence as part of a systematic attempt to oppress and marginalise them. As Amnesty International (AI) states in its report 'Because I am Oromo': "thousands of Oromo people have been subjected to unlawful killings, torture and enforced disappearance." People without any political affiliation are arrested on suspicion that they do not support the government – "between 2011 and 2014, at least 5,000 Oromos have been arrested". Amnesty asserts that recent regime violence was "the latest and bloodiest in a long pattern of suppression". This description of government intimidation and brutality will sound familiar to most Ethiopians.'

ETHIOPIA: FURTHER INFORMATION: DETAINED OROMO PROTESTERS MUST BE RELEASED

By **Amnesty International**, 17 February 2016, Index number: AFR 25/3437/2016

The Ethiopian authorities arbitrarily arrested and detained a number of peaceful protesters including journalists and opposition party leaders in recent brutal crackdown on protesters in the Oromia Region. Those detained remain at risk of torture and other illtreatment and should immediately and unconditionally be released. Amnesty International considers the peaceful protesters arrested to be prisoners of conscience detained solely for peacefully exercising their right to peaceful assembly. They continue to be at risk of torture and other ill-treatment.

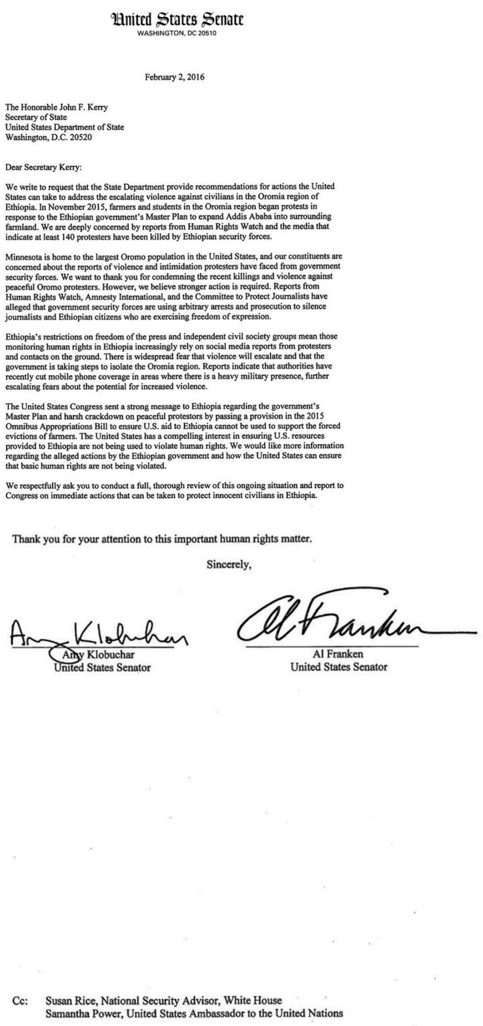
U.S. Senators request Sec. Kerry for full review of the situation in Ethiopia to protect innocent Oromo civilians

February 3, 2016



United States Senate
WASHINGTON, DC 20510

February 2, 2016

The Honorable John F. Kerry
Secretary of State
United States Department of State
Washington, D.C. 20520

Dear Secretary Kerry:

We write to request that the State Department provide recommendations for actions the United States can take to address the escalating violence against civilians in the Oromia region of Ethiopia. In November 2015, farmers and students in the Oromia region began protests in response to the Ethiopian government's Master Plan to expand Addis Ababa into surrounding farmland. We are deeply concerned by reports from Human Rights Watch and the media that indicate at least 140 protesters have been killed by Ethiopian security forces.

Minnesota is home to the largest Oromo population in the United States, and our constituents are concerned about the reports of violence and intimidation protesters have faced from government security forces. We want to thank you for condemning the recent killings and violence against peaceful Oromo protesters. However, we believe stronger action is required. Reports from Human Rights Watch, Amnesty International, and the Committee to Protect Journalists have alleged that government security forces are using arbitrary arrests and prosecution to silence journalists and Ethiopian citizens who are exercising freedom of expression.

Ethiopia's restrictions on freedom of the press and independent civil society groups mean those monitoring human rights in Ethiopia increasingly rely on social media reports from protesters and contacts on the ground. There is widespread fear that violence will escalate and that the government is taking steps to isolate the Oromia region. Reports indicate that authorities have recently cut mobile phone coverage in areas where there is a heavy military presence, further escalating fears about the potential for increased violence.

The United States Congress sent a strong message to Ethiopia regarding the government's Master Plan and harsh crackdown on peaceful protestors by passing a provision in the 2015 Omnibus Appropriations Bill to ensure U.S. aid to Ethiopia cannot be used to support the forced evictions of farmers. The United States has a compelling interest in ensuring U.S. resources provided to Ethiopia are not being used to violate human rights. We would like more information regarding the alleged actions by the Ethiopian government and how the United States can ensure that basic human rights are not being violated.

We respectfully ask you to conduct a full, thorough review of this ongoing situation and report to Congress on immediate actions that can be taken to protect innocent civilians in Ethiopia.

Thank you for your attention to this important human rights matter.

Sincerely,

Amy Klobuchar
United States Senator

Al Franken
United States Senator

Appeal of Oromo Student's Union (OSU) to International Community
February 10, 2016, Finfinne (Addis Ababa), Ethiopia

To:

- Multinational organizations (UN, EU, AU, and others)
- Countries supporting the Ethiopian regime in the name of development, peace and security, education, science and technology (USA, European countries, Canada, Australia, and others)
- Human rights organizations (Human Rights Watch, Amnesty International, Human Rights League of the Horn of Africa, and others)
- Oromo political organizations
- Oromo studies Association (OSA)
- Oromo community organizations all over the world and all other concerned bodies

We members of Oromo Student's Union (OSU) appeal to the international community that we are currently living under difficult conditions. It is evident that the Ethiopian regime is committing genocidal crime on the Oromo people in general and the Oromo students in particular by deploying its military and police force and terrorizing us for peacefully protesting demanding our rights asking the legitimate and rightful questions of our people. Our questions are the questions of our people. Our demands are the demands of our people. Our demands can be divided into two major categories:

1. **Basic human rights must be respected.** While the Oromo constitute the majority of the Ethiopian population, Oromia constitute the largest territory, and the region is the economic backbone of Ethiopia, the Oromo people have been marginalized in every arena. Over the past 24 years the Oromo people do not have proportional power and economic share in the country and have been ruled under the EPRDF which in essence is maneuvered and completely controlled by the TPLF party. Since the mass base of the TPLF/EPRDF is the minority Tigrean population, it has been in constant conflict with the Oromo people in Oromia. The Oromo people are ruled under the barrel of the gun being constantly killed, arrested, tortured, students dismissed from schools, civilians kidnapped and disappeared, are forced to leave their country and become refugees in several countries around the globe. Therefore we demand that the basic human and democratic rights of the Oromo people be respected and a system based on equality, justice, democracy, and a government based on the needs of our people be established.
2. **Master Plan must be stopped.** Starting from 2014 we protested against the so called Master Plan of the TPLF/EPRDF regime, a plan which incorporates several Oromian towns into the capital Finfinne

Web2PDF
converted by Web2PDFConvert.com

(Addis Ababa), evicts Oromo farmers from their ancestral land, eradicates Oromo culture, language and identity, planned to sell Oromo land and plunder Oromia's natural resources, divide the map of Oromia into two, and causes pollution and environmental degradation. We presented our appeal in writing several times requesting that the Master plan be stopped. Instead of answering our request to stop the Master plan, the regime announced another plan to incorporate major Oromian towns which is another plan to incorporate the entire of Oromia under the jurisdiction of the federal government which on the other hand is controlled by the TPLF. When our requests fell into deaf ears we protested peacefully. The answer to our peaceful protest has been brutal killings, beatings, mass arrests, kidnappings and disappearances, inhuman torture by the regime's so called Agazi troops. In addition to some 80+ people who were killed in 2014, more than 200 peaceful citizens, mostly students have been killed since November 2015. Thousands others have been wounded. Countless others have been jailed and are under severe torture. **Read More**:– **Oromo Student Union appeal to International Community Feb 2016 (1)**

Date: February 24, 2016

The Union of the Oromo Gadaa Councils,
Alarmed by of the recent disturbances in the Oromia Regional State,

> UNDSS internal memo regarding the situation in West Arsi formerly known as East Shewa. 16 Feb. 2016
>
> UNDSS: CLASHES IN EAST SHEWAS – WEST ARSI / OROMIYA
> At least two protesters and five police officers were killed in the latest clashes in East Shewa, Oromiya.
> First reports of protests date back from 8 February in the village of Amaro. Yesterday, a UN road mission was blocked by heavy clashes in Aje. In nearby Loke Kecha a bridge was destroyed and in Siraro a court office was damaged.
> The town of Shashamane on the main road is tense and people fear violent protests could spread to their town.
> The cancellation of the Addis Ababa Masterplan has not removed the underlying grievances that lead to the protests in Oromiya between November 2015 and Jan 2016. The volatility continues and one event or overreaction of police officers can trigger chains of retribution by angry protesters.
> We currently recommend to avoid any private road travel any further south than Langano Lake. For official UN road missions please check situation with local counterparts. However, when planning road missions bear in mind that

reliable real time situational information is not available. Police will usually block roads to protest sites and you should know the return time or nearest safe havens for your road trip when you are blocked from continuing your travel.

Blutige Niederschlagung friedlicher Demonstrationen in Äthiopien
Ihr Schreiben an Volker Kauder vom 14. Januar 2016

Sehr geehrter Herr Decke ,

vielen Dank für Ihr Schreiben vom 14. Januar 2016, in dem Sie u.a. den Vorsitzenden der CDU/CSU-Bundestagsfraktion auf die sehr besorgniserregende aktuelle Situation in Äthiopien angesprochen haben. Volker Kauder hat mich als die zuständige Vorsitzende der Arbeitsgruppe Menschenrechte und humanitäre Hilfe darum gebeten, Ihnen für die CDU/CSU-Bundestagsfraktion zu antworten.

Sie haben das Schreiben auch an die Vorsitzenden der Bundestagsausschüsse für Menschenrechte, Auswärtiges und Wirtschaftliche Zusammenarbeit und Entwicklung versandt.

Der Vorsitzende des Ausschusses für Menschenrechte und humanitäre Hilfe, mein Kollege Michael Brand MdB, wird das Schreiben zum Anlass nehmen, um den Botschafter der Demokratischen Bundesrepublik Äthiopien in Berlin, S.E. Herrn Kuma Demeksa Tokon, zeitnah zu einem Gespräch mit den Ausschussmitgliedern einzuladen und in diesem Zusammenhang auch die jüngsten massiven Menschenrechtsverletzungen in Äthiopien zu thematisieren.

Oromo Protests have spread to southern Oromia since last week to "stop the leeching tycoon and monopolist Alamoudi," according to the protesters. Al Amoudi is a famous monopolist of many businesses in Oromia – including gold mining, cement factory (Derba query), tanneries and farms. Al Amoudi is one of the richest persons in Africa and the world, according to the U.S.-based *Forbes* magazine.

Al Amoudi's companies are criticized for failing to share profits with indigenous communities they work around (especially, in the gold mining in Guji Zone and the Derba cement query in Shawaa), and for failing to give back to the community in general; other business owners in Oromia, especially local small-business owners, also accuse Al Amoudi's companies for receiving preferential treatments from the government and for engaging in predatory business practices to monopolize sectors of the economy. No where is this predatory practice evident than the dairy business; Oromo smallholding dairy farmers in Shawaa, especially those around Finfinne/Addis, were recently attacked in a vicious way by falsely propagating, through state-owned and government-affiliated media, that the milk from these smallholding dairy farmers causes

cancer – this was done, in part, to promote Al Amoudi's dairy company, *Shola Milk*, and also to drive the Oromo smallholding farmers out of their land through bankruptcy. Oromo Protesters say such abusive and predatory business practices must stop.

The government is also blamed for evicting thousands of Oromos, without compensations, to make land available to Al Amoudi's companies whenever they request for it – especially in the gold mining region in Guji and the Derba query in Shawaa. In addition, Al Amoudi's companies are said to have no regard for the environment; for instance, the leather/tannery and flower/horticulture companies in Oromia release toxic cancer-causing chemicals without any environmental treatment.

In many ways, Al Amoudi epitomizes what's wrong with the current federal arrangement of Oromia in Ethipia, according to the Oromo Protesters; Al Amoudi is given the green light to "develop" in Oromia by the Federal Government in Addis Ababa – which itself is controlled by Tigrean elites of the TPLF/EPRDF ruling party; in many, if not all, cases, the business arrangements between the Tigrean-headed Federal Government and Al Amoudi are not transparent to the Federal Regional State authorities of Oromia.

The following is a report on the ongoing Oromo Protests against the "leeching tycoon and monopolist Alamoudi" in the gold-rich Guji Zone of Oromia; the protests have been staged since the mid of last week (starting around February 4, 2016, according to media reports). The government, as usual, relied on brute force to respond to the protests; the latest report says at least 1 Oromo person was killed, and 3 Oromo persons were critically wounded by the government's special force, *Agazi*.   *Read more at:-*

#OromoProtests 26 January 2016: Oromo political prisoners are on a hunger strike in Ma'ekelawi

According to media reports, Bekele Gerba, other imprisoned leaders of the Oromo Federalist Congress (OFC), and other Oromo political prisoners are on a

Web2PDF

hunger strike in Ma'ekelawi, the notorious prison in Addis Ababa. The report said the political prisoners started their strike on Friday, January 22, 2016, and have vowed to continue the strike until their demands are met. Some of their demands, which they have communicated to the prison's officials, include:

1) access to legal counsels and visitations by family as guaranteed by the Constitution and internationally accepted rights of prisoners;
2) cessation of torture of political prisoners in Ma'ekelawi;
3) access to proper medical care for all political prisoners.

It has not been possible to verify how many political prisoners are taking part in the strike. However, it has been confirmed that the following leaders of OFC are part of it: Bekele Gerba, Dejene Tafa, Desta Dinka, Addisu Bulala and others. Since November 2015, thousands of Oromos have been taken to Ma'ekelawi in connection with the ongoing Oromo Protests against the lack of adequate self-rule for Oromia (of which the Master Plan is an example), and the decades-old marginalization of the Oromo people in the political, economic, social, linguistic and cultural spheres in Ethiopia as a whole. In addition to those thousands arrested in prisons and concentration camps across Oromia and Ethiopia, more than 160 Oromo persons were killed, and thousands of Oromo persons have been wounded by the Ethiopian Federal armed forces – including tens of Oromo children.

It is to be remembered that the Ethiopian government brought Bekele Gerba, Dejene Tafa, Addisu Bulala and others to a federal court in central Addis Ababa on January 22, 2016 *(listen to the report in Amharic below)* – this date is the same date on which the hunger strike reportedly began; many human rights organizations, such as the *Human Rights Watch* and *Amnesty International*, accuse the Ethiopian government of using draconian laws to prosecute peaceful and legitimate political dissidents in biased courts to silence voices critical of the government's violations of human rights and unjust policies.

***#OromoProtests Support Group in Switzerland* organized a successful rally at the UN Office in Geneva on January 25, 2016.**

The rally was attended by Oromo peace activists in Switzerland as well as other Ethiopian Nationals concerned about the deteriorating human rights violations in Oromia and across Ethiopia. The Ethiopian government's response to the peaceful Oromo Protests has so far been violent, which has negatively contributed to the increasingly unstable political and security conditions in Ethiopia in the fragile Horn of African region. In an attempt to calm the peaceful Oromo Protests through military means, the Ethiopian government has, over the last two months alone, gunned down more than 160 Oromo persons who took part or had been suspected of taking part in the Oromo Protests, which have been staged in Oromia since April 2014, and quite intensely since mid November 2015, against the lack of adequate self-rule for Oromia (of which the Master Plan is an example), and the decades-old marginalization of the Oromo people in the political, economic, social, linguistic and cultural spheres in Ethiopia as a whole. At least 17 of those killed and wounded are Oromo children.

The following are some photos from the Geneva solidarity rally (reported by*OromiaTimes.org*).

PEOPLES ALLIANCE FO

OFFICE O

Date:23.01.2016

Ref.:

The PAFD extends its most sincere gratitude to the EU Parliament in general and to those who were the sponsors of the Ethiopian resolution, including members from the Socialists and Democrats (S&D), the Alliance of Liberals and Democrats for Europe (ALDE) and Greens/European Free Alliance (G/EFA) of the EU parliamentary groups in particular.

The resolution the European Parliament has adopted on 21 January 2016 offers great support to the millions oppressed in all parts of Ethiopia and gives them courage for a better democratic and just future.The multitude of committed genocides and unfolding atrocities in Oromia, Ogaden, Gambella, Sidama, Omo, Benishangul and other parts in Ethiopia will continue, unless the international community takes some urgent practical measures to stop them. The Ethiopian government has often ignored international calls for remedy of its human rights violations, knowing that there would be no follow up or significant repercussions. In 2007, for example, the UN called for an urgent investigation into the Ogaden war crimes and crimes against humanity. However, the Ethiopian government embarked on an all-out campaign of extermination and collective punishment of civilians in the region and the international community looked the other way. Similarly, the killings in Gambella and Sidama, as well as those in Finfinnee (Addis Ababa) were also condemned by the international community, while the regime shrugged its shoulders and continued its massacres and curtailment of all democratic rights, while being rewarded with more money under the pretext of development.

History has shown that development at the expenses of democratic rights has ended in disasters and grave consequences. The Ethiopian situation is much more complex than other areas which aggravates the matter further because of unresolved historical injustices.

The PAFD calls upon the UN, AU and EU to follow up to their own resolutions and send independent commissions of inquiry to look into the massive human rights allegations that have been and are being perpetrated by the Ethiopian government against the civilian population and take appropriate measures to stop any further acts. All types of Ethiopian security forces must immediately withdraw from Oromia, Ogaden, Gambela and other areas into their barracks.

The PAFD calls upon all peoples in Ethiopia to stand together and act in unison against the atrocities committed by the regime, in order to regain their denied rights to democracy and true self-determination.

Breaking news: there has been reports of heavy gun fire exchange in Waddessaa area near Ambo since yesterday

January 23, 2016

(Oromia Press) — There has been reports of heavy gunfire exchange in Waddessaa area near Ambo since yesterday. Particularly localities such as Haro-Xirro, Wadessa-Galan, Xulle are said to be like war zones. Civilians have been trying to escape the fighting. Residents in nearby districts confirm Agazi special forces have been moving into the area in tens of cars since the night before yesterday. It is not clear who they are fighting or firing at as network in the area is down. Source claim the clash might have been caused when the army tried to disarm local government militia suspected of being disloyal. The conflict is said to have been intensified today and heavy casualties are feared. The military has prevented ambulances that tried to reach the area from nearby towns. Warraaqsa FXG Hararge Lixaa Magaalaa Mi'eessoo

January 17, 2016

Rage in Miesso following the killing of 6 peaceful protesters on 17 January 2016. has erupted in Asabot town West Hararge. #OromoProtests also in Asabot town West Hararge. Farmers from the region have moved to the city condemning the killing in neighboring Miesso town.

The 6 people killed in Miesso has been identified as:

1) Yasino Abdala Ali
2) Abdella Hassan
3) Mussa Hassan
4) Abdulhakiim
5) Ahmad
6) The six person has been badly disfigured as he was hit with grenade and hard to conclusively identify at this time.

The attack was perpetuated by TPLF's mercenary in Somali region, the notorious Liyu Police. On Friday TPLF's chief os intelligence for the Eastern region warned administrators of the two Hararge provinces that he will deploy Liyu police if they cannot stop the ongoing protest. As promised following yesterday's march of farmers on Miesso town, 7 truck loads of Liyu police entered Western Hararge. This morning they invaded Miesso attacking peaceful protesters. You might recall that Liyu police attacked protesters last week in East Hararge as well.

The United States Calls for Meaningful Dialogue About Oromo Community Concerns

January 14, 2016

Press Statement

Web2PDF
converted by Web2PDFConvert.com

John Kirby
Spokesperson, Bureau of Public Affairs
Washington, DC
January 14, 2016

The United States is increasingly concerned by the continued stifling of independent voices in Ethiopia, including the detention of Oromo political party leaders. These arrests have a chilling effect on much needed public consultations to resolve legitimate political grievances in Oromia.

We support the Government of Ethiopia's December commitment to public consultation with affected communities. For these consultations to be meaningful, all interested parties must be able to express their views freely.

We reaffirm our call on the Ethiopian Government to refrain from silencing dissent and to protect the constitutionally enshrined rights of all citizens, including the right to gather peacefully, to write, and to speak freely as voices of a diverse nation. We call for the release of those imprisoned for exercising their rights, such as political party leaders and journalists.
