

SOCIAL PROGRESS IMPERATIVE

2016 Social Progress Index Results Map

The WORLD on average performs about as well as Mongolia or Kyrgyzstan

Mongolia

Rank: 80/133 | Score: 62.80

[Mongolia]

[Kyrgyzstan]

Kyrgyzstan

Rank: 79/133 | Score: 62.91

The AVERAGE PERSON in the world...

ENJOYS GOOD

Nutrition and Basic Medical Care

Access to Basic Knowledge

Personal Freedom and Choice

SUFFERS POOR

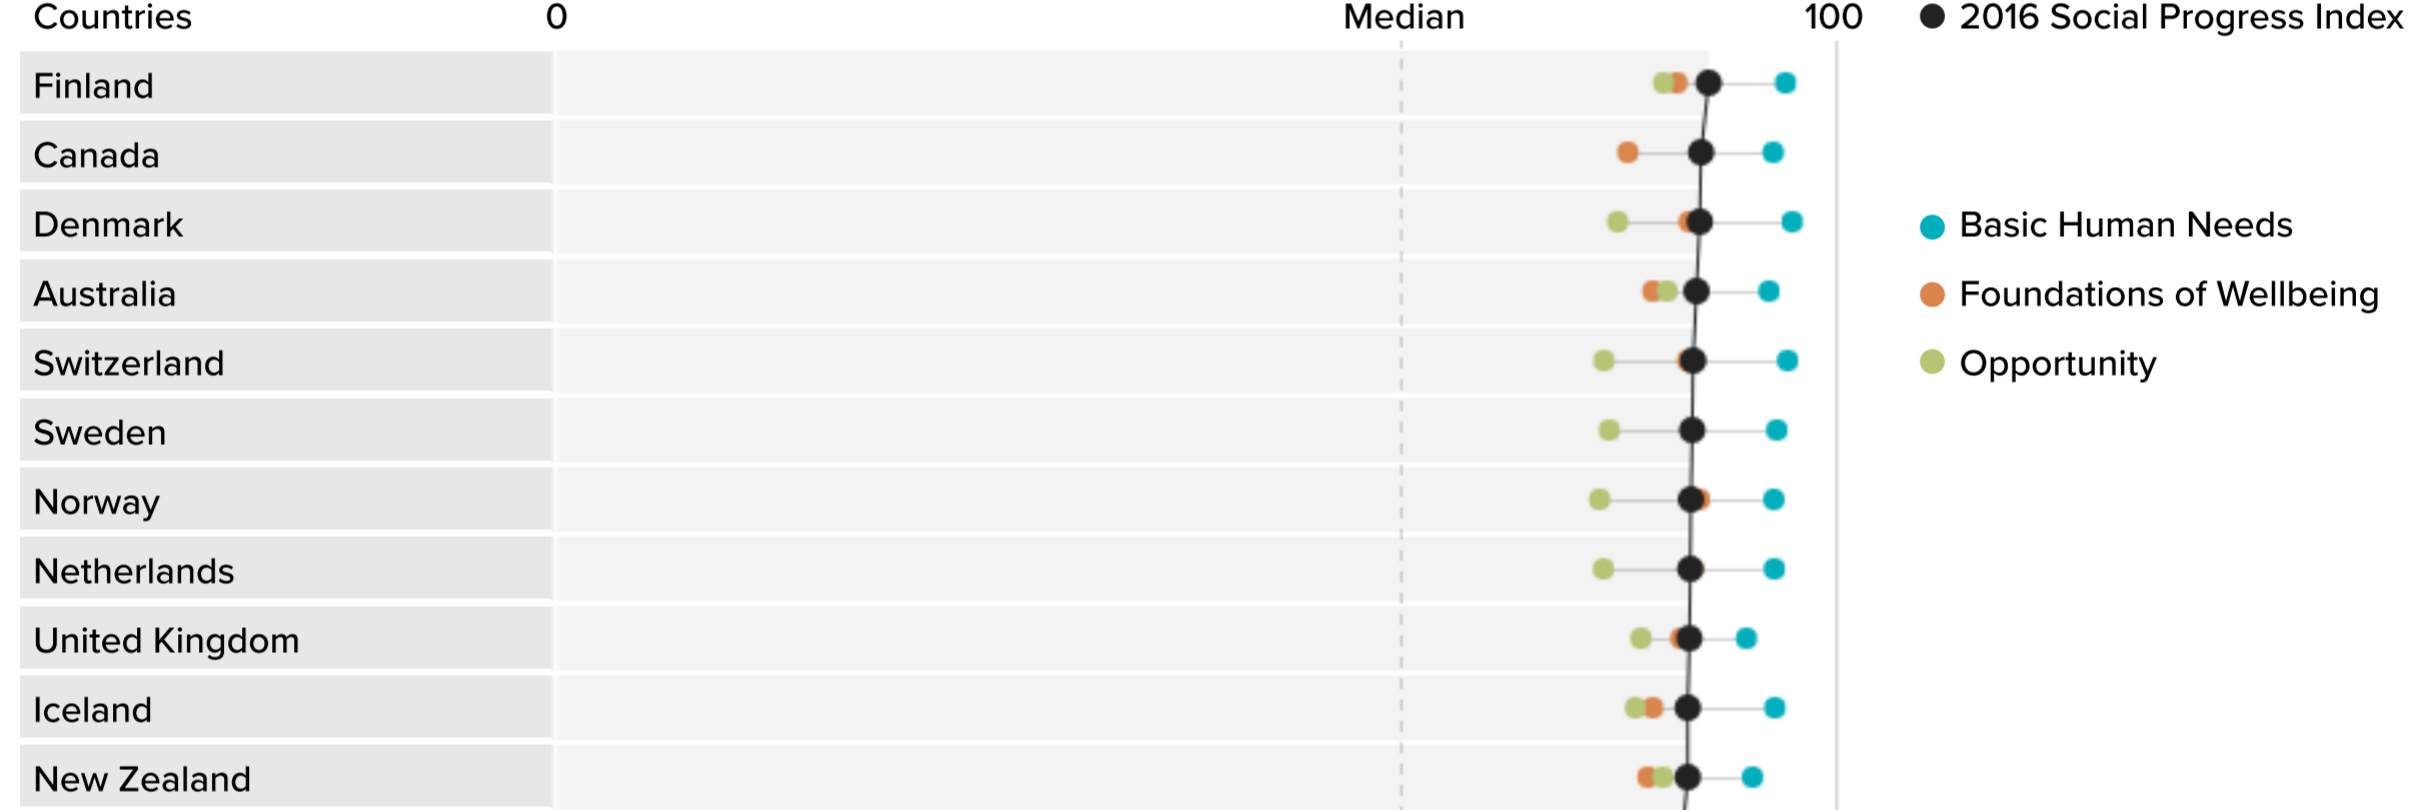

Tolerance and Inclusion

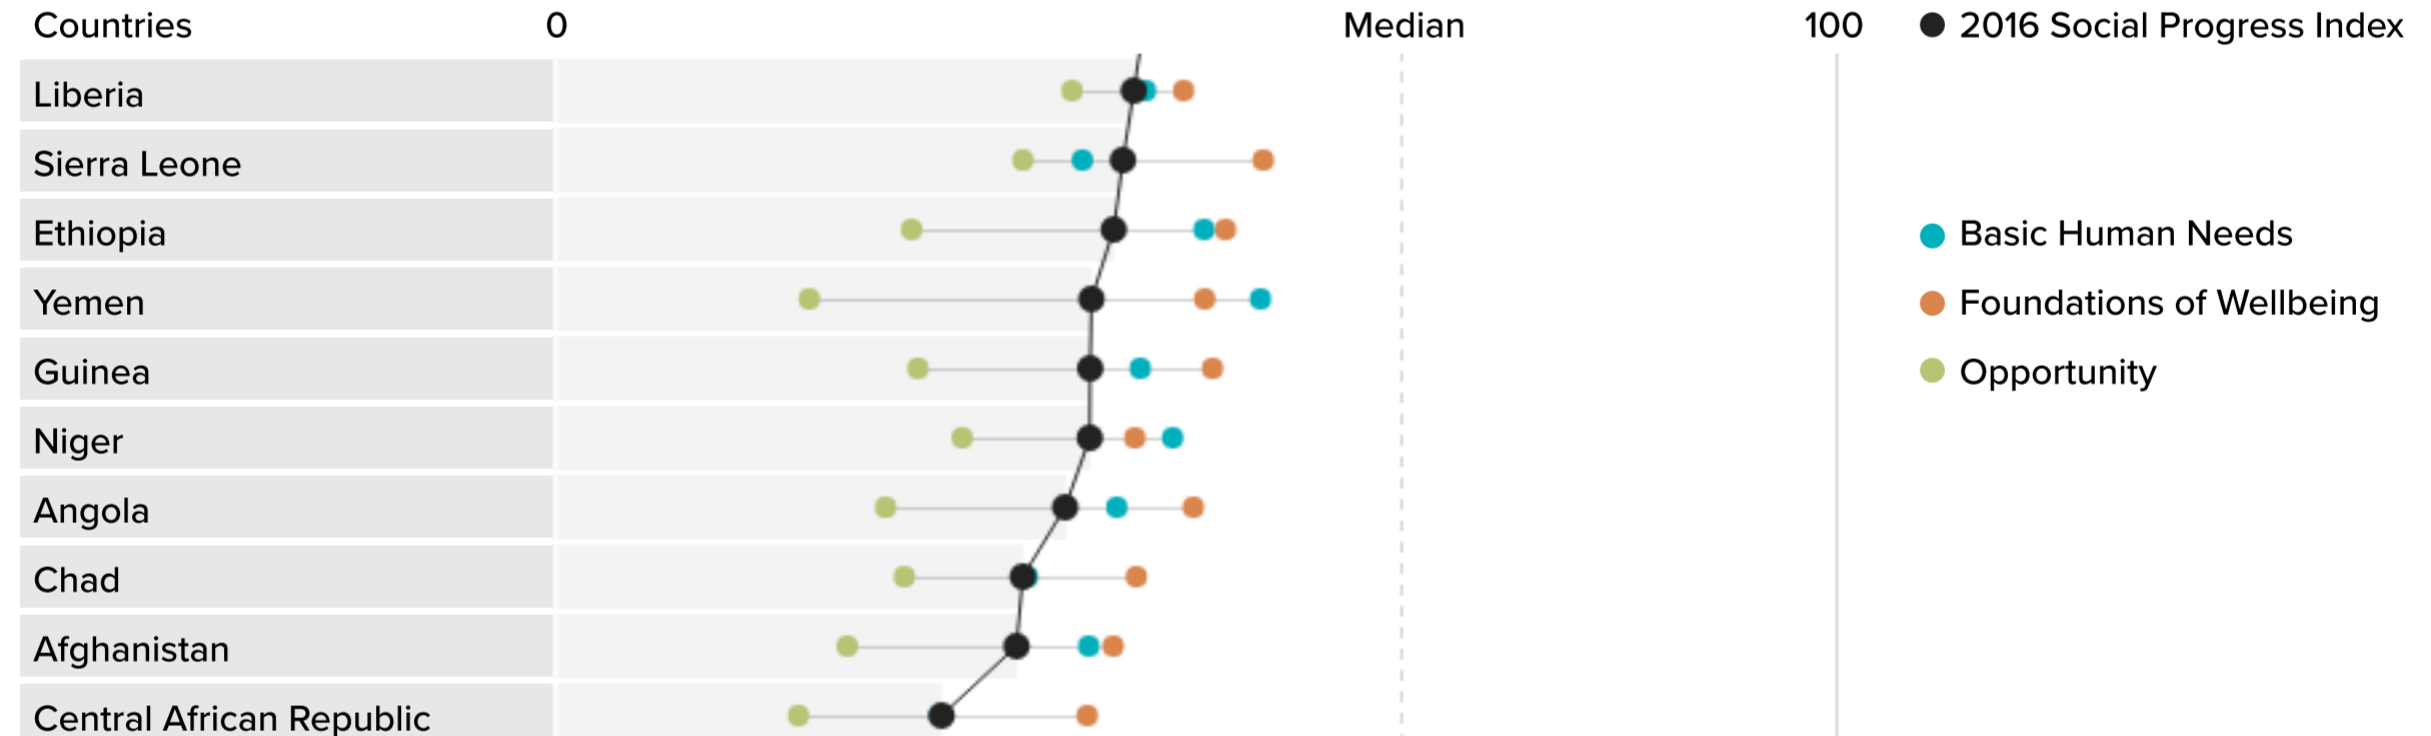

Personal Rights

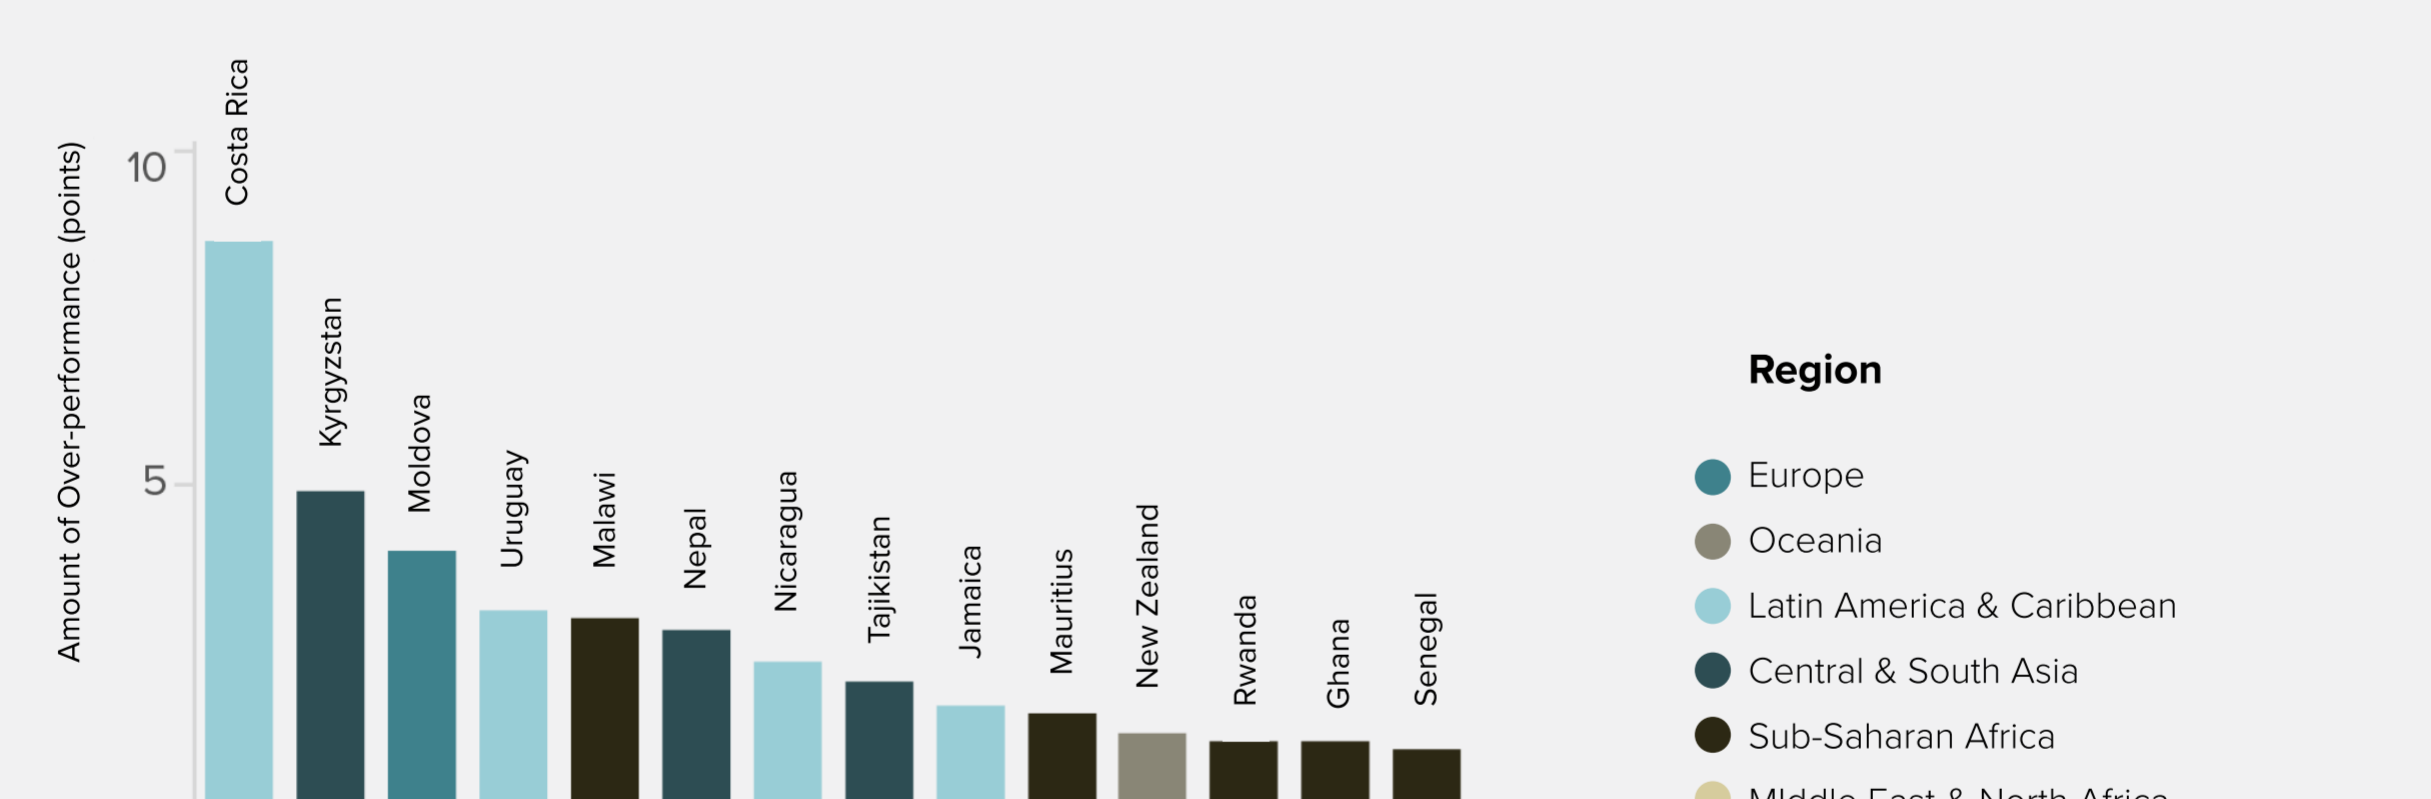

TOP 10 COUNTRIES

BOTTOM 10 COUNTRIES

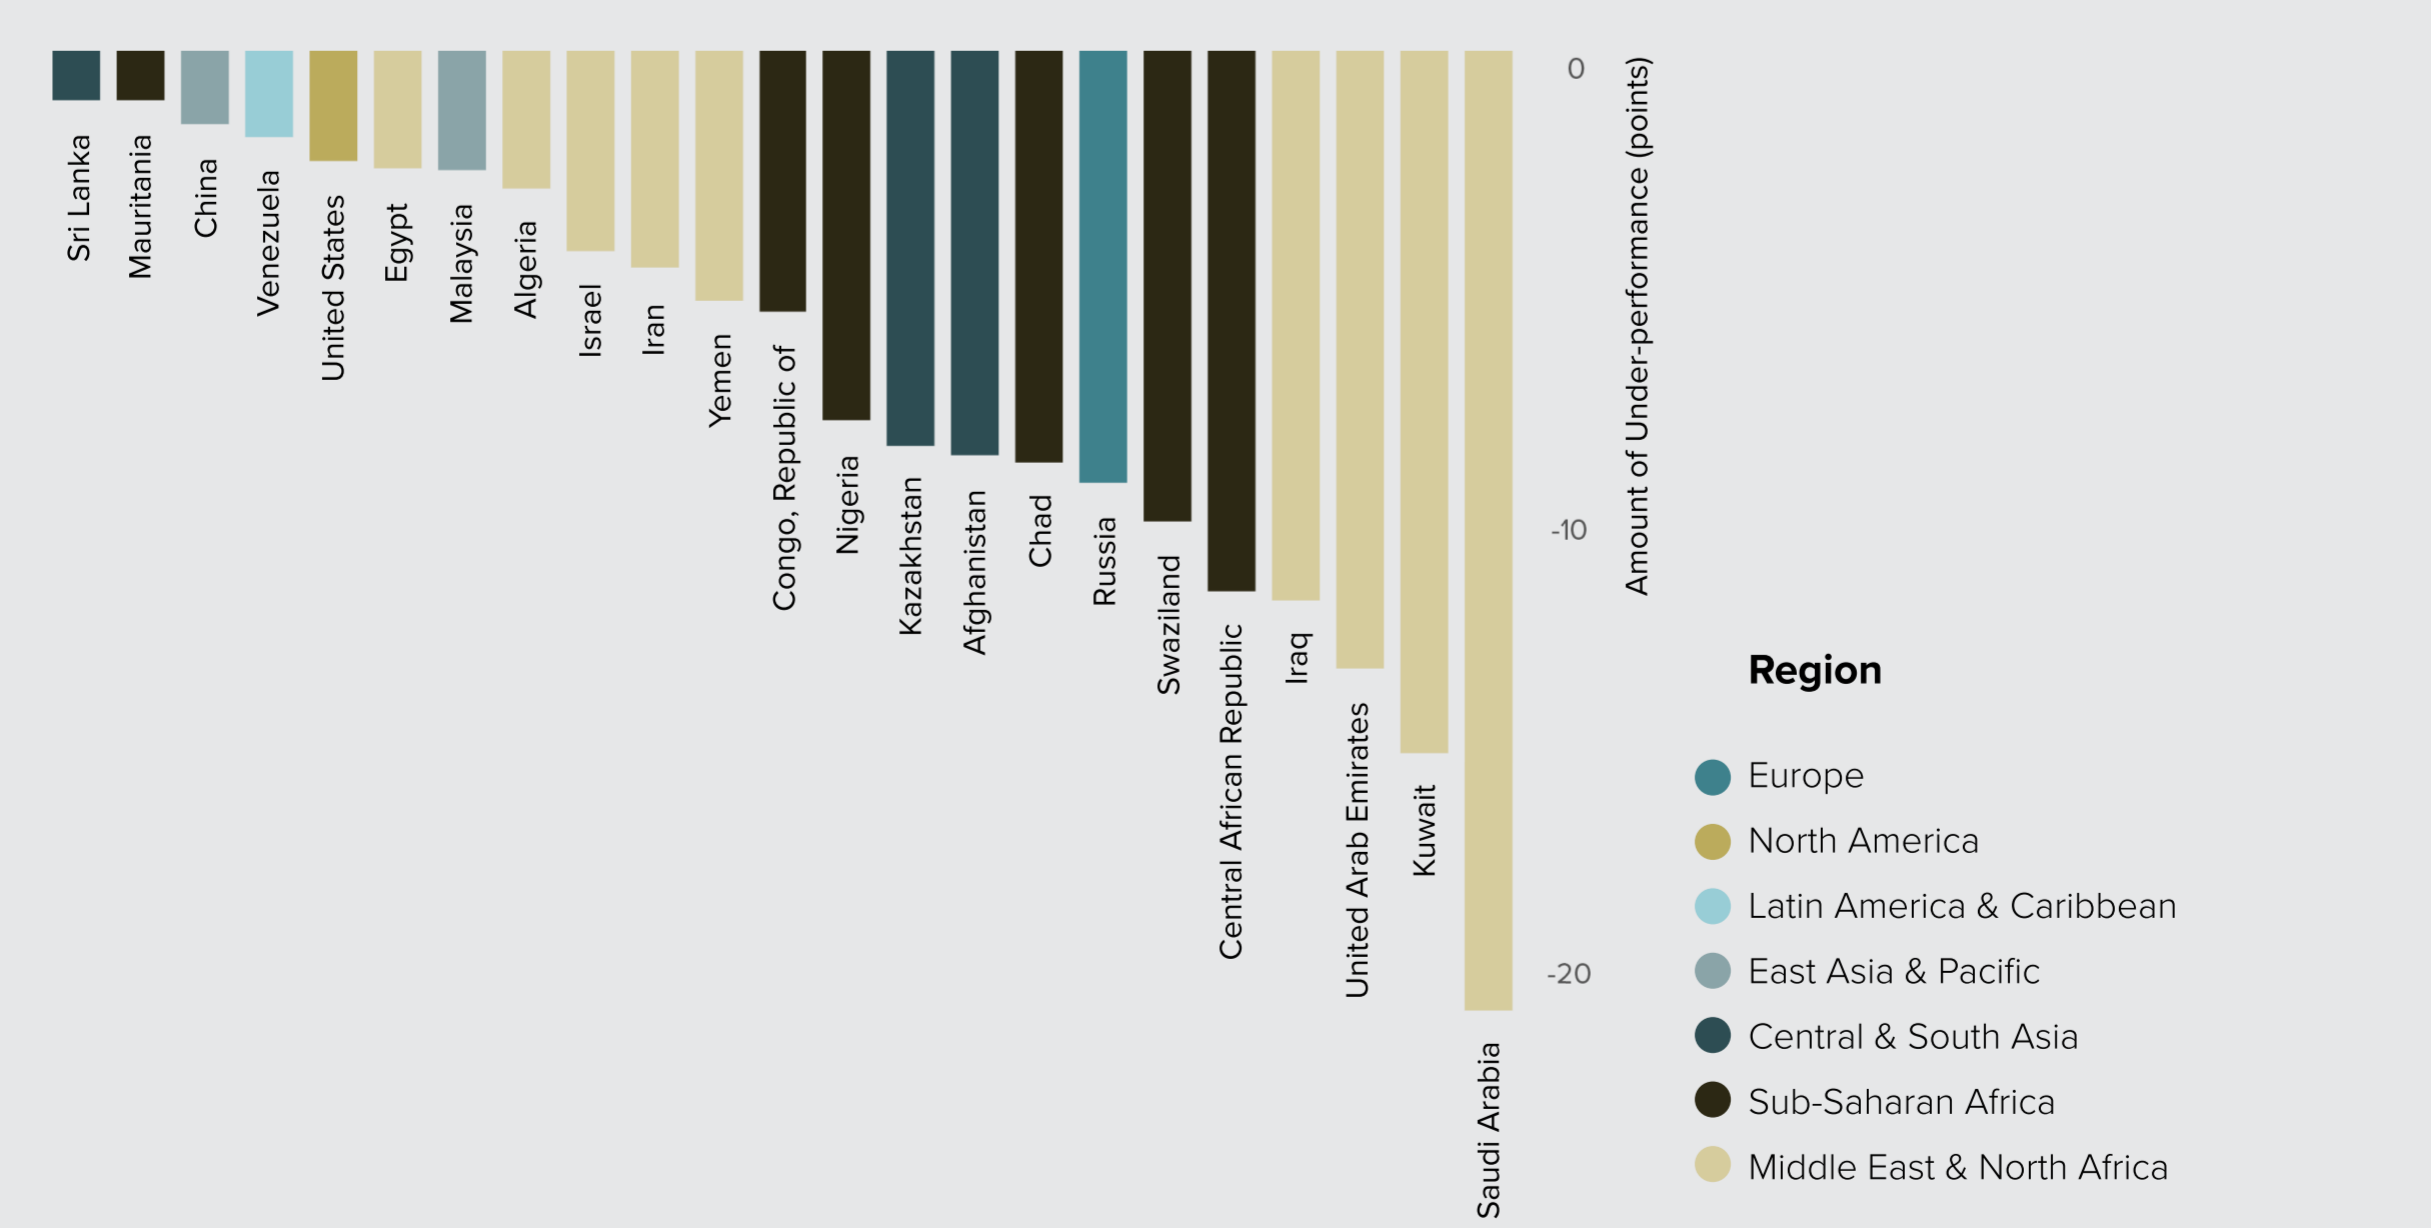

Countries over-performing on social progress relative to GDP per capita (PPP)

Over-performance can signal very strong performance in social progress (e.g., Costa Rica, New Zealand, Rwanda). Some countries' relative over-performance may be a sign of economic decline rather than success in creating social progress (e.g., Moldova, Kyrgyzstan).

Countries under-performing on social progress relative to GDP per capita (PPP)

Many countries with natural resource wealth and many countries afflicted by conflict under-perform. So does one of the world's leading industrial nations, the United States.
